Dear Martin,

Any more news about the location of the Merieux factory in the Soviet Union? Any information on this subject that I can obtain before the first of the year could be very useful.

It was very good to see you. You are a favorite with every member of our family.

as ever,

Matt

29 Nov.

Dear Matt,

I've just called Merieux. The factory they built is located at CHOLKOVO 40 kms from Moscow. It is the largest of its kind in the world. They can produce 50 million doses/yr. of trivalent F + M. vaccine, and 150 million doses of monovalent vaccine. That is the only installation Merieux has been working with

Love
Matt
